FREELANCE PROJECTS FOR THIRD PARTIES

LANDING PAGES

Dr. Mariana Cavalcante

- Landing page for a medical clinic; responsive design optimized for lead conversion.

Salone Beauty Barber

- Landing page for a barbershop and beauty salon; integrated scheduling and visual identity.

Oshlab

- Landing page for a technology company; services, portfolio, and lead generation.

SYSTEMS & APPLICATIONS

Sol - Management (Sal Energia)

- Management system for a distributed generation credit company; clients, contracts, and billing.

Status Energy Manager

- Management of distributed generation clients; report automation and energy monitoring.

MachVisor

- Vehicle and heavy machinery control for preventive and corrective maintenance.

ResolveMais

- Subscription-based question platform for ENEM, entrance exams, and public exams; gamified study.

PROJECTS

POS - Odontological System

- Dental system; patient records, appointments, and financial control.

DocJect

- Project and contract management; documents, deadlines, and digital signatures.

Vitrine Fortal

- Marketplace for products from Fortaleza; digital storefront for local small entrepreneurs.

DATA ANALYSIS

K&L Veiculos (Sep 2019)

- Customer data extraction (Uber and personal use); cleaning with VBA;
- A/B testing; interactive dashboard in Looker.

Efit BOX (Apr 2021)

- Subscription data extraction; analysis with PostgreSQL;
- Marketing correlation for A/B testing; Power BI.

Saara Offices (Dec 2023)

- Web scraping with BeautifulSoup and Playwright (asynchronous Python);
- PostgreSQL; Power BI analyses; inventory recommendations.

Energy Extractor (Jun 2025)

- Invoice web scraping with Python (Playwright); PDF extraction;
- Automated dashboards via VBA macros in Excel.

CERTIFICATIONS

Courses and Certifications

- Advanced Excel with VBA - Udemy 2021
- Full-Stack JavaScript Development with React and Node.js - Udemy 2024
- NestJS - APIs with TypeScript and Node.js - Udemy 2025
- Git for Developers - Udemy 2025
- Artificial Intelligence and Large Language Models (LLMs) - Udemy 2025
- Complete Docker Course - Udemy 2025
- VPS Server - Deployment and Management of Production Applications - Udemy 2025
